About SDFTI

San Diego Flight Training International (SDFTI) is approved by the United States Federal Government to train overseas students and the Federal Aviation Administrator (FAA) to provide a range of pilot training licences and endorsements, including Commercial Pilot licence with Multi Engine Endorsement and Instrument Rating (CPLMEIR). SDFTI has a fleet of over 19 training aircraft including the Cessna 152, Cessna 172, Piper Arrow and Piper Seneca.

A team of highly qualified and experienced Instructors ready to assist students achieving career goals. Montgomery Field Airport is used for the pilot training which is fully equipped with operational runways, central tower, navigation aids and a large number of aviation related activities.

About Overseas Aviation Academy

Overseas Aviation Academy has been set up as a unit of Overseas Education Trust under the banner of Overseas Group. Overseas Group has a long experience of 15 years in arranging admission of students from Indian sub-continent for various courses in overseas institutes including for Commercial Pilot licence. In its latest endeavour, Overseas Group has introduced the unique plan for completing the Theory classes of CPL curriculum at Kolkata and thereafter proceeding to USA to complete the Flight Training with 275 hours flying time commensurate with DGCA standards.

Collaboration

Overseas Education Trust has forged a tie-up with San Diego Flight Training International to conduct theory classes through to FAA CPL standard. The CPLMEIR course is 52 weeks. Under our innovative new program, you will conduct the first 6 weeks of your course in Kolkata covering all the theory required for your Private Pilot Licence exam and Commercial Pilot Licence exam. You will then conduct practice exams with us and once you have demonstrated that you have the required knowledge, you will then proceed to San Diego for a further 46 weeks to conduct your practical flight training and sit for the FAA exams.

Commercial Pilot Licence with Multi Engine Endorsement and Instrument Rating

Course Entry Requirements -

Entry level qualification: NO BAR

DGCA (Director General of Civil Aviation in India) requirement :
10+2 pass with Physics and Mathematics

Aviation Medical

Pass an FAA Class 2 Aviation medical
